Associate in Science in Business Administration, General Business
The Business Administration program provides students with the necessary courses to transfer to a four-year college or university to pursue a baccalaureate degree in business. Students in this program may prepare for specialization in accounting, international business, economics, finance, human resource management, management, marketing, or other related careers. Students enrolled in this program are strongly encouraged to consult the Transfer Office as early as possible to ensure courses transferred will be most acceptable to transfer institutions. The Associate in Science degree is awarded upon completion of the program.

Program Competencies
Upon successful completion of this curriculum, students should be able to:

- Record financial transactions, perform calculations, and prepare financial statements in accordance with the principles and concepts established by the Financial Accounting Board and the Internal Revenue Service.
